Commanding vast district and ocean views, 'Skyview' is a truly unique rural property located beneath the Little Forest Escarpment in a tightly held area. Elevated and private, set over 25 acres of tranquil acreage, there are endless opportunities to make this your own. Greet the day, with spectacular sunrises from the Master suite or stroll out onto the deck to breathe the fresh air, perhaps enjoying some early morning yoga. It's also the perfect place to relax with a drink or dine al fresco with the glorious backdrop adding wow factor. Ideally positioned on the property is the large, single level home with stunning views from every room. The well designed floorplan offers privacy for parents with their own north east facing wing comprising a large master bedroom opening onto the deck, spacious ensuite, walk in wardrobe and a study (or possible 5th bedroom). The central kitchen is the hub of the home, adjacent to a large dining room and two separate living areas both opening to the al fresco deck. There are three more bedrooms, bathroom, laundry and internal access to the double garage with workshop area plus detached shed/ garage for farm equipment. There is plenty of space to take up a sustainable lifestyle with room for veggie gardens, chickens and cows. Horse lovers could accommodate a couple of horses and trail ride on their own property and surrounding trails. Wander around 'Skyview' and surrender to the idyllic natural beauty surrounding this acreage. A beautiful lifestyle property which strikes the perfect balance between privacy and access to all the best that Milton and the South Coast has to offer. Only 10 minutes drive to the vibrant village of Milton and 15 minutes from some of the finest surf beaches on the South Coast. We love: * Single level, large home * 9 ft ceilings * Slow combustion wood fire, fans and air-conditioning * Huge deck with spa and stupendous views * 2 car garage attached to home, plus separate garage/shed * Bitumen driveway * Water tanks (60,000 litre capacity) plus 2 dams * Established gardens, fruit trees
