JUST LISTED

Immerse yourself in an exceptional and exceedingly rare real estate opportunity in the highly sought-after Brisbane South region. This expansive and meticulously crafted property is perfectly designed for dual living or as a profitable rental/investment option. With completed levels 1 and 2 offering separate living spaces, this property provides unmatched versatility and functionality. With a total of 6 bedrooms and 2 bathrooms, this property offers an impressive level of accommodation for residents. The lower level features a spacious 3-bedroom, 1-bathroom family home adorned with multiple living areas, including a dining and bar area. Upstairs, accessible through a separate entry, you'll find another 3-bedroom, 1-bathroom residence complete with its own kitchen, dining, and living areas. The separation of these living spaces ensures privacy and convenience for all occupants. The desirable features continue outside, with the property offering a caravan carport and two large garages. One of these garages is an 8m x 8m structure equipped with a commercial-grade vehicle hoist and a mezzanine level, perfect for storing surplus belongings. Additionally, a separate 6m x 6m shed, internally connected to the larger garage shed, offers even more storage options. The convenience of automatic doors further adds to the allure of these facilities. This property also provides a range of essential amenities. An additional toilet downstairs, a stairlift for elderly or disabled individuals to access the upper level, and an automatic gate entry to the main driveway enhance the comfort and accessibility of the property. A 5,000-litre water tank with an external-use pump ensures sufficient water supply, while a separate garden shed caters to the storage needs of lawnmowers and garden tools. Additionally, this property boasts a 6.6 KW solar system, providing significant energy efficiency and cost savings. A renovation in the late 1999 or early 2000s has modernized the property, while a tin/metal roof and vinyl cladding contribute to its durability and visual appeal. The sheds are powered with their own circuit boards, although water is not available in these structures. The upstairs flooring consists of sheeted particle board, adding to the overall quality and design of the residence. Situated on Harris Road, a peaceful cul-de-sac, this property offers tranquility and privacy. Its convenient location is further enhanced by its proximity to a council park, offering direct access to recreational spaces and nature. For added comfort, the main bedroom and rumpus/living area downstairs are equipped with split system air conditioning, ensuring optimal temperature control throughout the year. Don't miss out on this truly extraordinary property opportunity in Brisbane South. Whether you are seeking dual living arrangements or a lucrative rental/investment option, this expansive and thoughtfully designed residence is sure to surpass your expectations. Embrace the potential and unique features of this remarkable property by scheduling a viewing today.
