Everything that is Denmark

When most people think of Denmark, they probably think of ancient Karri trees, gently undulating land, wonderful beaches, a mild climate and many other positive features. Most of these can be enjoyed from this beautifully crafted 3 bedroom, 2 bathroom home on 3.17 hectares of north sloping land. Wide verandas on three sides and a living area positioned for the northern light. There is an attractive use of timber to enhance the warmth and country feel of this lovely home. Reverse cycle air and a large slow combustion wood heater maintain a comfortable temperature, while you enjoy the clean air, filtered by the forest. All only 7km from Denmark off the scenic Mount Shadforth Road (sealed). Western Power is connected and there is excellent mobile phone coverage. Come and inspect a true Denmark experience.
