This well located 3 bedroom, 1 bathroom home is the perfect home for a family or for an investor looking to purchase a property ready to rent. This home is located in a beautifully kept street and offers plenty of parking with a large two car undercover carport. Inside the property is well kept and offers features such as reverse cycle split system air conditioning to the lounge and master bedroom, ceiling fans, roller shutters, electric fireplace heating, extra bench and cupboard space to the kitchen to name a few. This property absolutely comes into its own when you step out the back door and are greeted with an undercover patio area extending the length of the house giving you a feeling you are in a tropical resort. From here you step out into the lush green paradise with an abundance of fruit trees and plants, and beautiful spots to sit and enjoy the outdoors. For the nature lovers we even have a resident frog that comes with the house as well. A medium sized garden shed makes up part of the rear yard. The original lock up garage/carport has been converted to a utility room providing extra living space for you to enjoy this beautiful, lush oasis. All of this is located on a 715 sqm corner block. Be sure to come and view this property and all it offers. Call Kim on 0414 772 977 for further information
