Awaiting Price Guide

With loads of kerbside appeal this beautifully presented home in the popular Redwood Village precinct in Kingston offers you the opportunity to enjoy a quality lifestyle. Set on low-maintenance grounds the property has a carport as well as hardstand for parking. Entering through the stained glass front door you are welcomed into a large living room. This room has a feature bay window offering spectacular views towards kunanyi / Mt Wellington which adds a lot of charm and open ambience to the room. The kitchen is accessed through a sliding door from the lounge and is well designed with plenty of storage and preparation space. A sliding cavity door leads from the kitchen into the laundry which has some storage as well as the back door leading out onto an exterior drying area. There is also another door leading into the hallway. Just off the lounge is a separate dining room accessed through a pair of bi-fold stained glass doors. This is a lovely room and it's easy to imagine it becoming the setting for seasonal festivities and dinner parties. A glass sliding door leads out from the dining room onto a nicely proportioned balcony. From the lounge another stained glass door opens onto the hallway with its own storage cupboards and off the hallway are two generously sized bedrooms both with built-in robes. One of the bedrooms has its own doorway giving direct access to the family bathroom. The bathroom features a vanity and corner shower with a separate adjoining toilet. The grounds of the home are low maintenance and this home is close to all the services of Kingston with the Kingston Town shopping centre within walking distance. Further afield within easy driving distance are the region's additional attractions including the services, sporting facilities and shopping centres of Kingston and the beautiful beach and golf course of Kingston Beach. Redwood Village is an extremely popular residential area for over 50's and this lovely home will attract a wide range of buyers.
