Large Elevated Queenslander Home on 2 Acres. Have you ever dreamt of living in a Queenslander-style home with dozens of palm trees in your spacious garden, gazing out to tranquil blue water, but you just don't want to move away from your established life? This spacious open-plan residence on two acres has sweeping views of the lake and also a huge alfresco outdoor area across the northern side of the home. There are two master suites, each with a bathroom, a spacious laundry and a roomy light filled multi-use entry foyer, so space is plentiful. Whilst the home is the perfect retirement home only 15 minutes from Swan Hill, it also has an open carport for three vehicles and an attached lock-up workshop in addition to a large, detached machinery shed including a large lock up workshop - a boys paradise, or tradie heaven. The property has both filtered water and lake water for irrigation with a bitumen road to Lake Boga township (5 minutes) - the best of all world's. So perhaps that long held dream is not so unattainable after all!
