A lovely north facing position near the park welcomes you to this family friendly neighborhood, fast rising with new builds close to top performing Wheelers Hill Primary. The fully refreshed family home on its landscaped 655sqms (approx.) takes full advantage of its bright aspect, bathing the connected living and family rooms with plenty of natural light. Luxury granite benches and travertine inspired tiles bring a touch of Europe to the kitchen, bathrooms and laundry for a renovation with timeless appeal. Adding to the European feel are magnificent covered al fresco spaces – a pebble-paved sheltered patio up front, and a grand verandah out back framed with steel fencing, gating and a laserlite roof to serve as the perfect BBQ pavilion. Zoned bedrooms set away from the central living spaces create a practical setting, with the street facing master bedroom featuring a shower ensuite and walk-in-robe, and a family bathroom to service the rear bedrooms. Ready to be enjoyed with premium Miele kitchen appliances, ducted heating, evaporative cooling, and an extended driveway to the remote garage and workshop, from this popular pocket close to Monash Freeway, Caulfield Grammar, Jells Park and the coming upgrade of Brandon Park Shopping Centre.
