\$750,000 - \$825,000

"Agents talk about properties with large features but honestly, check out the size of these rooms!" Everything about this house is oversized. The master bedroom is five metres in width! The other three are well over 4 metres which is rare in homes these days. The living areas are well proportioned, the kitchen bench-top is massive and even the backyard is larger than normal. If that's not enough, you're walking distance from some of the largest parks in the town including the Dragon Park. Also walking distance from Bridgewood Primary School and Officer Secondary College. The Officer One marketplace is also getting bigger and that's walking distance from the house too. So let's talk about the house:- Four bedrooms, as we've discussed all large rooms, master with built-in robe and en-suite;- Rumpus/theatre room at the rear of the home;- Open plan living and dining room that has ample space;- Huge kitchen with walk-in pantry and large appliances;- Heating and cooling;- Under roofline alfresco;- Massive block exceeding over 500sqm
