\$345,000

Great improvements have been made recently to this stunning vacant allotment. There is a 6x6 Colourbond Garage, with gyprock walls installed providing an ideal camping spot while you build your dream home along with a water tank and wood heater that provides that little bit of extra comfort. Power is provided at the bottom of the block, with a newly installed pole from where to connect to the electricity grid. There is a small dam at the top of the block, and plenty of building sites with stunning views over the ever-popular Lachlan Valley. This sensational block is located a mere 6kms to the township of New Norfolk that includes most services, schools and shops, and a further approx. 40kms to Hobart's CBD. Call Steve today for a private inspection!
