Any persons interested in the property should conduct their own research. Location shots and use of furniture (real or virtual) are for visual display purposes only and not included in the lease.The low set hardiplank and flat fibro style with side carport and extended rear patio indicates it was built in the 1970's, however, the interior has been renovated in more recent years including the big ticket items, the kitchen and the bathroom.The dwelling has two bedrooms and a sleep-out, enclosed entry, open plan kitchen/dining/living area, one bathroom, laundry, side carport and rear patio.Did I mention it is very well located.Additional ground improvements include boundary fencing, mail box, rotary clothes hoist, concrete car tracks, small rain water tank and a garden shed.Hard to go wrong with this location and would suit the first home buyer or astute investor looking to tap into the rental opportunities created by the nearby base hospital.
