\$650,000

Welcome to this truly expansive home located in a prime spot with easy access to both Stanthorpe and Tenterfield, as well as local shops and services – all of this with spectacular views over the renowned Wallangarra mountain ranges in a quiet part of town. As soon as you step inside you realise how big this home really is, with multiple living areas, 5 large bedrooms and all the amenities to go with it. The layout is very practical with the master bedroom + ensuite on one side of the residence and most of the other bedrooms down the other end along with a separate living area and bar. The centre of the house features a lovely big kitchen with oak wood cabinets, high bench tops, deep butler's pantry, and large windows with views to the East – perfect for the morning sun. A recessed main living area separates itself from the kitchen and dining space while still being within easy reach and offers plenty of accommodation for large couches, recliners, and other comforts. A central fireplace and air conditioning provide year round temperature control. Most of the bedrooms are exceptionally large with space for beds, study desks and even extra room for couches. All have built in robes. The home features full length front and back undercover verandahs, with the back benefiting from the Northeasterly views over the Wallangarra mountain ranges. A built in BBQ nook makes this a great spot to entertain and relax. A 3-bay shed with 2 roller doors provides accommodation for at least 2 cars as well as plenty of space for a workshop + storage. Backyard is fully fenced and has 2 large chicken coops and room for vege gardens. To organise an inspection call Logan Steele on 07 4681 3311
