Expressions of Interest

31,708.6 HECTARES, 78,352 ACRES 3 Freehold titles and 1 rolling term lease. Has been held continuously for 64 and 75 years. Over the past 19 years 'Hayfield' has been run as a cattle breeding operation, prior to this it was run as a successful Fine Wool Merino sheep breeding operation. Since 2014 stock numbers have been reduced and Santa Angus X introduced with improved genetics supplying sappy weaners for southern markets. The country is suitable for back grounding and fattening. Presently enjoying an exceptional season there is a great mixture of country growing a variety of soft grasses. These include Mitchell, Flinders, Buffel plus Gidyea burr, Copper burr and numerous other salines, herbage and forbes. The country has a big percentage of soft chocolate, pebbly Gidyea and scattered Gidyea flats, Mitchell grass open downs, soft red Mulga country with drought reserve, open grassy plains, some range and spinifex. Numerous creeks and gullies provide flood out and most are well established with Buffel grass. Watered by 13 dams and 3 sub bores. Fenced into 7 main and 3 holding paddocks with close to 20,000 acres exclusion fenced. The centrally positioned 3 bedroom homestead also has a 2 bedroom self contained unit attached. All powered by solar power. The cattle yards are situated close to the homestead. Offered by: Expression of Interest - closing Wednesday 5th June 2024 at 2pm
