\$460,000

Private bush setting situated only 8 mins from Stanthorpe town centre. The property features a fully equipped 'shed house' with large living area, big bathroom, modern kitchen and a expansive under cover patio space with views over the land. It has been designed as a home base for keen caravan travelers and is perfect for people looking to spend time away in nature, while still being close to the amenities of town. The house has mains power connected and a small solar system. Adjacent to the main house there is a covered outdoor entertainment area with built in camp kitchen and plenty of room for tables, chairs and guests. The elevated platform steps down to a large firepit - making this area ideal for hosting BBQ's and functions. The 14 acres consist of relatively flat land with plenty of cleared areas in between the granite rocks. Boundary fully fenced and there is a nice stock dam. Plenty of wild life and birds. Properties like this don't come on the market often so don't be disappointed - book an inspection early. If you would like to organise an inspection cal Logan Steele on 4681 3311
