A residence that works for you, works with you and lets you enjoy the experience of being 'at home' in a fresh, fabulous way - this superb address understands what matters most to families today. The quality of its construction and the luxury of its spaces create a brilliant context for living close to Cooper Reserve, The Circle, schools, Altona Gate Shopping Centre and easy freeway access. A living/dining area defined by contemporary beauty includes a state-of-the-art kitchen featuring stone surfaces, a central island and substantial pantry storage while to the rear, an alfresco pavilion overlooks the courtyard garden's lush lawn. Five bedroom, three bathroom flexibility reflects the family focus of a design where the upstairs accommodation includes a main bedroom with ensuite, walk-in robe and dressing room. A study/retreat and the downstairs bedroom's versatility as a refined lounge or large work from home zone further enhance an address that's gorgeous to look at, great to live in and incorporates every comfort, the convenience of an internally accessed garage facility and turn table for additional off street parking. Perfection today's way.
