This two storey Queenslander is a must-see home that is deceptively large. The compact yet functional 400 sqm block offers you the freedom to enjoy your down time and not be chained to the mundane tasks of the usual garden maintenance. Downstairs the home has more than ample storage space with a place for everything, from the camping gear to an art studio. The manicured gardens are beautifully landscaped with tropical plantings that are easy to care for with inground reticulation. Secluded away at the rear of the home is your sanctuary to enjoy the peace and solitude of your very own private oasis. The ground floor study offers a multitude of options, from the ideal home office with direct access to a studios space to educate and enjoy. Upstairs the home offers you an open plan functional living area. With high ceilings and traditional Queenslander features, the home is a masterpiece indicative of its era. All three bedrooms are large and spacious and the additional dressing room to the master suite is a space to pamper and preen. The gourmet kitchen is befitting the most fastidious chef, with ample bench space, soft closing draws and a large combination free-standing cooker that uses both gas and electric. The light and airy open plan living area integrates multiple living zones where you can enjoy entertaining friends and family or relax in your own solitude, the choice is yours. Because life is all about "choices". The modern bathroom overlooks the rear garden making it the ideal place to soak away the stresses of the day.
