\$2,850,000

The pinnacle of perfection with superior finishes and unrivalled design, this unique one-of-a-kind residence perfectly blends quality craftsmanship with quality lifestyle and living. No expense has been spared in refining this masterpiece, blending architectural features and contemporary comfort, space and ease of living are ever present. The impressive architectural build plays to its natural surroundings perfectly, intelligent design capitalises on its location, an impressive 1145m² block at the base of Mt Arawang. The home itself has been fully renovated and extended, the new floorplan ensuring multiple spaces to live, relax, create, entertain or host guests. Stepping inside, the entrance hall shows feature timber and soaring high ceilings, just a glimpse of the grandeur. The lower level offers four separate internal living areas, each harnessing quality lifestyle features. There is a media room, formal lounge with stone feature slow combustion fireplace, formal dining with feature lighting and a luscious outlook, plus the family area integrating the kitchen and outdoor entertaining. Outdoors, evokes resort style relaxation with alfresco area, including cedar ceiling plus skylights and a plumbed 4 burner BBQ, all with garden surrounds. The exquisite kitchen is sleek in design with two Miele ovens (one being pyrolytic), built in Miele coffee machine and microwave, Miele induction cooktop, Miele dishwasher, walk in pantry and suspended stone breakfast bar. There is also a separate study with built in cabinetry and large laundry with storage plus powder room on this level. All bedrooms are located upstairs, the grand master of palatial standards, featuring an impressive ensuite with storage a hidden shower and WC and a concealed laundry chute. A bedroom conversion leads to an incredibly spacious walk-in robe with custom storage and joinery. Three other bedrooms are located upstairs, all with built in robes, plus a master bathroom of the same standard with bath, shower and separate WC. There is also a walk-in linen closet. The features of this home are endless, all electricals and plumbing are replaced so the new owner can enjoy confidence as well as comfort in their purchase. There is an oversized double garage with workshop space and internal access, plus an additional large dedicated workshop with easy access to a full bathroom for building, creating or tinkering, ideal for a home business or home hobbyist, this could also serve as an additional garage. The cavity construction allows this to be transformed into a habitable space. Ideally located, close to parks, quality schools, Woden and Weston Creek shopping districts plus easy access to the Russell Defence Offices, the Parliamentary Triangle and Canberra Airport. The attention to detail and craftsmanship of this one-of-a-kind family residence are sure to impress.

- Double Brick Construction with suspended concrete slab upstairs - very quiet, cool in summer
- Frameless shower screens
- Custom joinery throughout with solid Bamboo features
- Completely re-wired with three phase power
- Plumbing replaced throughout including all new drainage
