This beautifully presented, high set weatherboard home is neat as a pin and is sure to impress, featuring views that seem to go on forever. There are three good sized bedrooms, all with built in wardrobes and ceilings fans, whilst the main has the added bonus of air conditioning. The kitchen has been updated and comes with stone benchtops and modern appliances, while the dining room flows to the air conditioned lounge room. For ease of maintenance there is vinyl plank flooring throughout the traffic and living areas. To the rear of the home, the covered deck provides the perfect place to relax while taking in the breathtaking views to the distant mountain ranges, internal stairs lead down to the fully concreted storage area and workshop space. The laundry and single garage are also on the lower level. There is a second covered area out back which overlooks the easy care, fully fenced rear yard, backing onto a council reserve. The home is completed with solar power for the energy conscious and is only a moments to the Goonellabah Shopping Village or 10 minutes to the Lismore CBD.
