\$1,120,000-\$1,230,000

Family friendly, enhanced by a flexible, free-standing unit, this traditional brick veneer residence offers an ideal combination of significant original character and a rewarding sense of scope to update when so desired. The original external lines frame impressively preserved, impeccably presented spaces including high ceilings, separate lounge and dining rooms surrounded by four bedrooms and a central bathroom. To the rear, a living/meals area accompanied by an open-plan kitchen confirms the retro integrity of a design that concludes with a dedicated study and a separate laundry. Features include ducted heating and cooling. The self-contained two bedroom unit, low-maintenance dimensions and convenient off street parking add to today's allure while tomorrow's options can be considered in complete, classic comfort. An ideal position that puts Reservoir station, cafes, shops and Edwardes Lake Park all within easy reach completes a property that represents a picture of past, present and future appeal.
