\$950,000 - \$990,000

Nestled behind a white picket fence, this stunning four bedroom + study family entertainer has been stylishly transformed for contemporary living, positioned for lifestyle within a heartbeat of beautiful beaches, public transport and schools. Showcasing modern coastal style; warm timber tones, stone surfaces and an open fireplace set the scene for family comfort, together with your choice of two spacious living zones to relax. The superb gourmet kitchen steals the show with its long island bench and walk-in pantry, together with French doors that lead you to a luxurious resort inspired paradise. Here you'll find a tranquil alfresco entertaining deck to host family and friends, along with a sparkling swimming pool and half basketball court for hours of fun. Peacefully residing upstairs are three further bedrooms and the family bathroom, while desirably set at ground level is the perfect parents ensuite retreat with an indulgent freestanding bath and walk-in robe. Completing this gorgeous Hamptons haven is a dedicated study, guest powder room, multiple split systems and internal entry from the double garage. In a golden location families love for the easy walkability to glorious stretches of sand, Kananook Train Station and Kananook Primary School, plus with the reserve, playground and café in footsteps, everything you need is at your fingertips.
