\$1,170,000

This gorgeous Hampton's inspired home offers some of the most breath taking views of K'Gari (Fraser Island) available on the Fraser Coast. Meticulously designed to maximise light and airflow through the home from its hilltop position it will feel like summer all year long. But it is the small details throughout the home that really sets it apart like the gorgeous tile work and stunning lighting throughout. Upstairs features three generous bedrooms, the huge master bedroom with ensuite and WIR opens up to the private northern facing balcony with island views perfect for a spa bath. The sprawling lounge/dining/kitchen space is flooded with the jaw dropping scenery that surrounds the home courtesy of the triple glass sliding doors and the fully optioned kitchen with walk in pantry and gas cooking will excite any home chef. But most of your days will be spent out on the huge patio running the entire width of the home and features an outdoor kitchen and roll down shutters at each end to add privacy. The stunning bathroom has been designed to kick back and relax in the bath while soaking up the water views. An attached single garage is located at the rear of the house so you can drive in on the top level without having to lug groceries up the stairs. This also houses the laundry with access door straight outside to the clothesline. Downstairs features a fully self contained granny flat with full kitchen and private entrance, perfect for extra family, guests or even an air BnB. Located in front of the flat is a huge carport which would easily house a caravan or large boat undercover. This home has way too many features to list so make an appointment to view today!
