\$440,000

Situated across the road from a lovely long stretch of beach with an excellent view out to the tropical islands this property is a delightful holiday home or permanent retirement home. The reserve that is located directly opposite you will ensure that your view will never be lost. You may lose a little bit if they build to the left but you will keep most of it, and there is a gazetted pathway to the beach directly opposite your front door. Featuring three bedrooms with built-ins and urban chic polished concrete floors this home has so much to offer. There is the inground pool at the back along with the huge three-bay high clearance, fully powered up shed. Add solar panels a side street access and you have got the perfect set-up. With open-plan living and floor-to-ceiling glass out to the wide covered front patio, you will be able to take every advantage of the stunning views and the beautiful sea breezes. The bathroom and kitchen are both generous in size and modern with a large bench space ready for prepping for the afternoon happy hour on the front patio. The local tavern with its excellent kitchen is just down the road as is the boat ramp in the other direction. Live out your days in this peaceful seaside village. Contact Michael Skuse
