**1335sqm (approx) DERELICT NO "DESIRABLE RES" HERE...**

Truthfully falling down and extremely dilapidated, this block is located in the centre of the Township of Redbank, and is ideal for a new home OR a possible re-work of parts of the original period house. There is town water available on site but no working bathroom. Power, is available for connection. The town has seen active buyer interest over the last 6 months and is located approx 26 km from both Avoca and Maryborough. It is a little piece of history, now quiet, holding memories of its glory days as a gold mining town.

Please contact agent for further details. ( It is zoned TZ Township Zone)
