Di Baker

Grand Family Entertainer in Prestigious College Enclave

Residing on approx. 1,483sqm of beautifully landscaped grounds and gardens, this traditional full brick double storey home is newly refurbished for modern European-style living over two substantial levels. Interiors are impeccably presented and finished with high end detailing throughout, bathed in streaming natural light and provide the ultimate indoor/outdoor lifestyle for a growing family.

Multiple living areas combine with a sumptuous designer kitchen, luxurious new bathrooms and up to six bedrooms, including optional self-contained accommodation, to deliver exceptional flexibility. The gardens were designed by landscape architect Gordon Sykes with inspiration from 'Windyridge Gardens' in Mount Wilson, featuring sheltered alfresco dining, a summer kitchen, terraced lawns and an elegant gazebo.

Complete with motorised entry gates to secure off-street parking including a triple garage plus abundant storage and a temperature controlled wine cellar, the property is destined to impress buyers who value space, quality and convenience. The location, too, is a standout. Ideally positioned just a stroll to Pymble village shops, cafes and rail, moments from renowned Pymble Ladies College and with easy access to the area's many other sought-after public and prestigious private schools.
