\$1,650,000

Architecturally designed and meticulously built, this stunningly executed home, with finishes befitting of its prestigious address, presents brand new, family-friendly living in a premiere locale. Past an open study and ground floor master suite, the vast family domain pleases with organic shapes and textures, including lavish stone surfaces in the gourmet kitchen. Featuring Smeg appliances including dual ovens, fluted island breakfast bench, and an abundant butler's pantry, the space is designed to be enjoyed. The adjacent living room enjoys the addition of a gas log fire, adding atmosphere to the family zone, which in turn flows out to a pristine courtyard with covered alfresco, with an outdoor kitchen and double lock up garage at the rear with ROW access. Master suites on each of the two levels boast chic ensuites and walk-in robes, one complete with private balcony accessed through wide stacker doors. Alongside an upstairs retreat, the luxurious family bathroom boasting a freestanding bath and frameless glass rainfall shower serves two more serene and spacious bedrooms, also with built-in robes. High ceilings on both storeys, refrigerated cooling, ducted heating, security features, engineered oak flooring, quality carpets, window furnishings, powder room, task lighting and brushed nickel tapware throughout demonstrate absolute dedication to quality in this carefully designed home. Close to everything from transport to parks, shops, CityLink access and schools, complemented by Strathmore College zoning, this utterly exceptional home calls to the discerning.
