Comboyne, commonly referred to as the gem of the North for its fantastic scenery and its temperate climate. It offers a lifestyle in a rural community and a more laid back lifestyle than the coastal fringe, yet, you are only 30 minutes to Wauchope's facilities. Within walking distance to Comboyne's coffee shops, the club and the local shops, this is a home that would suit a variety of new owners from young families to retirees and even investors. It sits on a gently sloping 740sqm block with a garage and workshop in the rear yard and plenty of space for the vege patch and a few chooks. Your opportunity to be "self sufficient." It has the ideal north to rear aspect. The home is colorbond clad with an iron roof. It has original hardwood flooring throughout and high ceilings. There are 4 bedrooms, all larger than normal with plenty of room to add built in robes. The lounge room has combustion heating, and the open plan kitchen, meals and family opens to an under cover entertaining/sitting area overlooking the rear yard. If you are looking for the tree change and a more relaxed lifestyle, this could be your new home. Call Barry today to book your private inspection on 0438 851 353
