This superbly presented gently sloping parcel has everything. Located in the highly desirable Noosa hinterland it is ideally sized at 6111m², providing for a unique lifestyle with privacy. The parcel is distinctive in having its 'Approved to Build' status with a high level of presentation and inclusions that are rare in the locality. Abundant plantings border the property's concrete driveway that leads directly onto the level building site where NBN and power services are available. The parcel's park-like setting features spacious grassed areas for recreation, a large stand of trees for shade and attractive rainforest on the sheltered rear boundary. Acreage of this quality close to Noosa with all its features is fast becoming a scarcity. Private inspection is now available.
