\$725,000

This is the family home you've been looking for . Why you ask . Because its perfect for a big family that desires more space for everyone. It starts with a spacious tiled foyer to greet your family and friends , then either move into the massive lounge room measuring 6.8m x 3.9m or head into the family room beside the kitchen. From there you can venture on through to the rumpus / billiard room measuring a terrific 7m x 4.2m. There is combustion heater installed which will make this room very cosy when winter comes around. Glass sliding doors open up along the family room and the rumpus room onto the outdoor covered area overlooking the inground pool. For dining you can choose from the large formal dining room next to the lounge room or you have plenty of room for a big table in the family/meals room. The timber kitchen will impress the cook and is well equipped with ceramic hot plates & wall oven , microwave alcove, double bowl stainless sink ,dishwasher, breakfast bar, and two sets of pantry cupboards .Talking about cupboards , this home has plenty. There are cupboards in the foyer , down the hallway , in the huge laundry and built in robes in 3 of the 4 bedrooms.The master bedroom has a cupboard in the room as well as either side of the walk way to the ensuite. A long vanity unit and mirror features in the ensuite.Three of the bedrooms have glass sliding doors that also open onto the L shaped covered area and have a view of the pool.Extra bonus features on offer here are Crim Safe security screens to all doors and security screens to the windows, 4 split system air conditions and roof insulation .Internal access to home from the double garage is also a plus . One roller door has a remote control from easy drive in access.If you have extra vehicles the driveway offers good space to park two cars plus there is space to the left side of the home idea from perhaps another car or trailer.Now let's not forget that beautiful inground pool with the paved area , where you can party outside with your family & friends enjoying so much fun cooling off.This great location is close to many schools and shopping centres and has easy access the Cunningham Highway for commuting west to Amberley or on to Brisbane .Quality built homes of this size with strong hardwood frames don't come along every day so get your family along to the open house to check it out .
