\$535,000

Offering great potential and an excellent position in Littleton, this well built brick veneer makes an ideal first home with plenty of scope to add value after a cosmetic renovation. The floor plan offers 3 bedrooms, an original kitchen and bathroom, an open plan living and dining room with timber floors, and an attached garage that has been converted to an additional living space. There is also the bonus of a handy under house studio with modern bathroom, perfect for guest accommodation or a teenagers retreat. All set on a large 796 square metre corner block.* Available for inspection from Wednesday 27th December by appointment.
