With great bones, and in a fantastic family friendly location, seize the opportunity to update and add value to reap the rewards. The lounge opens up through french-doors onto the entry verandah, allowing for a relaxed interplay between indoor and outdoor entertaining. The desire for outdoor living, which is already satisfied by its position opposite Chelsea Bicentennial Park, is supplemented by a large, north-facing backyard benefitting from the shade of nearby trees. Sitting in the heart of the home, a pleasant kitchen comes with a bold white finish, while the original tiling provides a pop of colour and texture to the space. New flooring sits under-foot. A full-sized laundry adjoins the meals area, providing additional kitchen storage if needed. Accommodation is met by three bedrooms (one with BIR, one with WIR) and a family bathroom. Included is a guest powder room, entry foyer storage, secure garage, off-street parking, ceiling fans, and ducted heating & cooling. Exceptionally positioned within walking distance of local parks & schools, Chelsea station village and the foreshore are right nearby.
