\$410,000

Just a few houses from the riverfront Cycle/walkway that runs from Innisfail Estate into town this family home has it all going on. This property is an easy walk to town and close to the high school. With concrete block and face brick construction, it is low set and very solid. You have 3 bedrooms in the main house with the master bedroom having a party-sized ensuite. The other two bedrooms in the main house have built-ins. The large timber kitchen with a stainless steel oven has an open plan dining area and then flows down to the family-sized sunken lounge room with its cool face brick finish. The guest bedroom, or perhaps a separate office is attached to the double garage. The house is air-conditioned throughout and very private from the road. The side access for cars leads to a huge undercover space, perfect for the boat or caravan with its very high clearance. This space also doubles as an outdoor living and entertaining space with room for the biggest gatherings. From here you access the large inground pool. This area is where the family and the kid's mates will all hang out. Currently tenanted at \$500 per week until August. This home is perfect for the family and a slightly longer settlement can allow for vacant possession if desired. Contact Michael Skuse
