"Presenting 'Uralla' Terraces: Three exquisite residences remaining, envisioned by the acclaimed architect Andrew Vingilis from the award-winning Corben Architects. Crafted with masterful construction techniques including full brick and concrete, these homes boast luxury finishes, skylights, and acoustic glazing, all within walking distance to Crows Nest village and St Leonards Station. Each residence offers 3 bedrooms, 2.5 bathrooms, with direct access to secure basement car spaces and storage. Bespoke kitchens with Miele appliances, premium flooring, and superior fixtures. Private gardens and alfresco spaces included on-title. Unbeatable accessibility in a relaxed community. Designed for sustainability with solar power, optimized orientation, and low-energy features.
