**\$495,000**

Here is a great opportunity to own a piece of history. This building was the start of the wonderful story of the King Island Dairy. This building was home to the butter factory from 1902 - 1948. Then used by the local kids as an indoor sporting arena. It has been left alone for sometime and is now ready for its next venture, whether it be a private home, tourist attraction, restaurant or a brewery! The options are endless. Set on just under 3 acres and 2 titles and well positioned on the main road between 2 world class golf courses.
