Boldly contemporary and proudly presented in as new condition, this spacious and light-filled, three bedroom townhouse creates a striking street presence in a sought-after position near Blackburn Square Shopping Centre and the Eastern Freeway. One of only three, this is a boutique residence with the promise of low maintenance living or investing, in a popular family pocket near all amenities. Certain to draw the eye and brimming with northerly light, an open-plan kitchen / dining / living stylishly merges polished hardwood flooring with a stone-topped kitchen - including an evocative, waterfall-edged island - that is complemented by a large undermount sink and a suite of superior appliances, as it connects effortlessly to a partly paved and undercover outdoor living and a backyard. Upstairs, a trio of carpeted bedrooms with abundant built-in robe storage - including the main bedroom with its own ensuite - share easy access to an additional living area/teen retreat with a convenient kitchenette and a family-sized bathroom. Fully secure with independent gated driveway parking in front of an internally accessed lock-up garage, the home also features an intercom doorbell, a laundry, downstairs powder room, reverse cycle ducted heating and air conditioning, as well as a security alarm and no Body Corp fees. Zoned for both Blackburn High School and Blackburn Primary School, the home is merely moments from local shopping, cafes and parkland, whilst the Eastern Freeway, Blackburn Railway Station, Brickworks Shopping Centre and Box Hill Central are also within easy reach.
