Great Value! This luxurious, three-story home with four bedrooms and three bathrooms is proof that modern functionality and a sophisticated lifestyle can coexist in harmony. Approximately 251 square metres in size, this masterpiece distinguishes out from the competitors thanks to its custom design, high-quality construction, and French Provincial-inspired beauty. Behind a striking façade and tucked away at the back of the property, this home's wide engineered Banff timber flooring, generous amounts of natural light, and elegant gold-brushed hardware epitomize luxury. The spacious open-plan design demonstrates a clear dedication to excellent craftsmanship, which is overseen by a stylish kitchen with Miele appliances (including a dishwasher that is semi-integrated) and gorgeous stone countertops. The presence of a private theatre room and a luxurious study adds to the appeal of this large residence. An entertainment deck, courtyard, Bosch security monitoring and surveillance system, a private home office, a luxurious wrought iron entry gate, and a double garage round out this excellent family house. Smart split system heating/AC assures comfort. Enjoy a low-maintenance, elegant lifestyle with the added benefits of no body corporate fees and gated security. All of this is close to the Scotchman's Creek bike/walking trail, the Chadstone Shopping Centre, Oakleigh retailers, public transit and Holmesglen TAFE. Photo ID may be required for entry of Open for Inspections.
