Clearly conceived and created with quality in mind, this extraordinary two bedroom plus study, two bathroom home excels with impeccable fixtures and the bonus of two sizeable courtyards. Peacefully positioned as the rear of only three homes on a beautifully presented block, this two storey sanctuary features a living room flowing to a meals zone and large, impressively appointed kitchen. A suite of stainless steel Franke appliances, pale stone counters and plentiful storage defines a space designed with cooks in mind. Versatile paved courtyards suit everything from entertaining to play and pets, while the study would alternatively make an excellent nursery. Bedrooms each provide a built-in or walk-in robe, and elegant bathrooms include an ensuite. Floor-to-ceiling tiling and parquetry confer appeal throughout while a powder room, heating/air conditioning, outstanding storage space, security system, automatic garage and Strathmore College zoning are the icing on the cake. Stroll to trams and shops, with schools and CityLink access conveniently close.
