A classic contemporary townhouse with vaulted ceilings and exposed beams, located in a small complex of 4 in a quiet location with private garden. Included are 3 bedrooms, two have built in robes and the 3rd bedroom has a built-in study desk with built in cupboards. The family bathroom includes a bath, shower and separate WC plus a separate laundry. There is a single garage on one side and a carparking space on the northern side, it could be possible to incorporate the garage into extra living/ office space and make a carport on the northern side as the neighbours have done. A stylish property with under cover BBQ area and a good-sized leafy garden with a covered rear terrace and garden shed. Great for the downsizer, investor or someone just starting out!
