Offers in the High \$400,000's

Thought Clayfield was out of your price range? Think again! If you're happy to roll up your sleeves and do some work - your new home could be right here! If you act quickly you can have settlement done before the end of June and then you and the mates can spend your tax refund cheque getting this one ship shape ready to start your new life! Best of all, it's positioned just down the road from the Junction/Sandgate Road intersection where there is everything you'll need to re-fuel while you work and even have some celebratory beverages when the day is done! And when the work is over you are going to be the proud owner of this cosy 2 bedroom unit and no one can take away the convenient location - it's yours for life! Positioned away from the road, and with only a couple of steps to your front door - even your Granny is going to be able to visit! Unit prices are soaring so don't let this opportunity pass you by - vacant and ready for immediate occupation - you'll kick yourself if you miss this one!
