Spacious Family Living in a Prime Location

Enjoying an exceptionally central location just a stones throw away from Bayswater Station and a vibrant local shopping and restaurant precinct, this renovated townhouse presents airy light filled spaces across two levels, ideal for first homebuyers or astute investors.

An open plan living and dining area offers ample natural light, and flows via glass sliding doors to a low maintenance courtyard garden. Adjacent, a spacious kitchen comprises stainless steel appliances, a gas cooktop and stone benchtops.

The upper level includes two very generous carpeted bedrooms, with a master featuring a large ensuite with jack-and-jill configuration and plenty of storage. This central bathroom is complemented by a guest powder room and a full laundry on the ground floor.

Featuring ducted heating throughout, split system air conditioning, roller blinds, and a single lock-up garage, the residence is positioned within a quiet well maintained street, walking distance from Coles, Woolies, Mountain High Shopping Centre and Bayswater Station.

Well-equipped and centrally positioned, this one has it all.
