\$600,000

With low maintenance tropical garden vibes and space aplenty, what more do you need? The light airy colour scheme is aesthetically pleasing with the much loved window shutters, the lighting, natural and with plush carpets and glistening tiles create a warm vibe and a practicality that is very appealing. The layout is astute. Clever placement of the bedrooms sees great separation between the master suite at the front of the home and the kids/guest wing at the rear, well away from the entry, with additional separation given by a superb home theatre, activity room and living quarters. The communal areas are open and flowing as is customary, with the alfresco extending seamlessly from the living areas under the main roof. The outdoors are well-kept, easy to maintain and add a lovely splash of vibrant green to the homes colour scheme. The front has plenty of driveway space. The rear has a lovely lawn space for the kids and pets to frolic, with the added bonus of a decked area to relax in the evenings under the stars and reflect on the day. The location is highly desirable for families. Parks and walking trails directly across the road. All major amenities like shopping centres, schools, restaurants and cafés are close by. The heart of Ellenbrook and The Vines Resort and Country Club just a short drive.
