There is room here for the whole family. Granted, it does look very interesting from the road, but that is nothing compared to what is on the inside. The lounge dining area is huge. The decks are huge. The master suite is huge, 5mx5m, plus the ensuite and walk-in robe. The cypress pine floors throughout are an eye-catching feature. All 3 bedrooms are air-conditioned but with the house designed to catch all the sea breezes they may not be necessary. Other features include oodles of GPOs, wired ready for surround sound in the ceiling, off-peak power point ready for a Spa, upstairs laundry (appliances stay), quality bistro shade to the verandas and a ducted vacuum system. All the aluminium French doors, windows and louvres are new. The use of beautiful timber for benches for the kitchen, veranda, ensuite and bathroom benches gives this home a special warmth for its size. Downstairs is solid and lends itself to numerous uses with its '17 block' high walls. It is currently used for a garage with a shower and toilet on one side, while the other side is a designated workshop with internal spiral stairs to the top level. Ideal height for the caravan or boat to be stored securely behind the extra large remote roller doors. There are two side accesses to the yard. The yard is well maintained, with plenty of privacy trees and side fencing. If this has sparked your interest, please don't hesitate to call me to arrange an inspection. As you can see from the price drop the vendors are motivated to sell. Property Code: 738
