Area: 2009 m2

Type: Residential Land

\$225,000

Blocks of land with a shed are very hard to come by so this gem is not going to last long. Situated in the "Port Kalbarri" estate the shed was up before regulations changed so it is approved by the Shire of Northampton. With a land area of 2009 sqm you are ALWAYS going to have a view, either to the West down Mariner Cres or to the North and the township of Kalbarri and of course "Jacques Point". How cool is that!!!! There is a hot water service so you can shower after a hard day's "work" which means the power is connected. You can sit on the verandah of your shed and ponder what you are going to build to maximise your view potential or just watch the Emu's and Kangaroo's wander by and Eagles soar overhead. There are restrictions of use in place but please give me a call to have a chat about the potential of this block of land.
