Sitting super close to the beach – just 1 door- this is a once in a lifetime opportunity. The current owner purchased land in 1963 and built a lovely home to suit his family. The time has now come to start a new journey and the hope is that a new owner will love the position as much as the last. From the property the water views are great. However, with some redesigning the views and position could be even more enhanced and appreciated. Alternatively, make a most of the spot and completely restart the project – a great position to knock down and start again. The home is tidy inside but needs some love outside. This one is suitable to occupy while you come up with your grand plan. The home is tidy and features essentially 2 homes in one. There are bedrooms, bathrooms, kitchens and living rooms on both levels. Live upstairs and rent downstairs. There are lots of options. The location is superb with the ocean and kilometres of beachside walking tracks on your doorstep. There is a school oval at the rear (no neighbours) and shops, public transport, medical facilities, parks, weekend markets, restaurants, cafes, and a friendly community are all close by. This unique property
