In a lovely quiet cul-de-sac close to the West Moonah border is this 'do upper' opportunity of a lifetime. On 800m² of fruit treed privacy with a fully separate studio chalet room with its own toilet and shower (not approved for living). Amazing off-street parking with its huge wide driveway. The house has 3 bedrooms and a fantastic split-level design. With big lounge featuring wood heater, pizza oven and a huge, covered BBQ deck. With views over Collins Cap and Mount Kunanyi it is a fantastic place to relax and entertain. Beneath the house is a large rumpus area which, could be used as a wine cellar. Evidentially yes, the house needs a lot of work but is still a very solid property. Underneath the carpets are Tas Oak floorboards and the house has been rewired. With speciality cat enclosures from the house to the garden including a 'catnip tower' it is also a pet friendly property. There is also fibre to the premises for all your internet needs. If you can see the potential, you will reap the benefits, but be very fast as there is only one of these! Please call Neville now for your private inspection.
