When someone looks for a new property to call home, they are usually looking for specific features. Well, this one has them all. Fully fenced landscaped gardens surround this large home. The block is fenced into two yards. Light slate floors welcome you into the bright open-plan living area, complete with a combustion heater. Natural light filters through a full wall of glass and sliding doors that lead to the outdoors. The kitchen is well equipped with ample cupboards, electric cooking, space for a large fridge, and views of the Ranges while doing the dishes from the double sink. All four bedrooms are carpeted with fans and built-in robes. The master bedroom has an ensuite consisting of a large shower, toilet, sink, and cupboard. Two bedrooms also have automatic roller shutters, perfect for shift workers. There are beautiful bay windows at the front of the home, of which two are bedrooms, and one is living. These windows feature plantation shutters, underneath storage and make for a perfect reading nook with views. Split system air-conditioners are throughout the home. The main bathroom is extremely spacious with a shower, toilet, and vanity. Within the bathroom is a hideaway laundry and extra storage. The powered garage/shed is approx. 63m² with a large double-sized door at front and toilet and sink as well. The front of the shed is a huge concrete slab with poles ready for a shade sail. There are two large undercover paved entertainment areas. One at the front of the home with beautiful views of the landscaped garden and the Ranges. The other in the backyard includes an inground spa and an extra storage area. This is such a great home with bonus features and an incredible view.
