\$440,000

Back in the day, this was one of the fanciest homes in Jurien Bay! Built back in the 50's with a Victorian flare. Retaining its original character and allure, including high ornate ceilings and wooden floorboards. This charming home is calling out to be restored to its former glory! As you approach the property you'll notice it's covered in beautiful established trees, a grassed lawn off all reticulation, a double carport, and an enclosed yard. There is a quaint front deck, perfect for people watching and all protected from the winds. You enter the property through a sunroom, the perfect chill-out space to read a book, which then opens out to the lounge room, followed by the dining and into the kitchen. You will immediately be impressed with the high ceilings, wooden floorboards and enduring charm. There are 3 extra-large bedrooms, complete with BIR's, a separate bathroom with a laundry and toilet out the back, there is also another games/storage room off the kitchen as you walk outside. It's comfortable with 2 x R/C aircon units and fans throughout. The rear yard is a blank canvas really, there is a small garden shed to lock up bikes etc and more stunning established trees, it's your own little hidden sanctuary. There is no doubt the property needs a lot of love, but it's perfect to move in today and slowly chip away room by room. The location is fantastic - in the old Jurien Bay on a quiet street, less than 500m from the beach and the main shopping center. Get ready to roll up your sleeves, this 760m² property is a fantastic location and is priced to sell. Call Samantha on 0409 104 724 to arrange your private inspection today!
