From \$750,000

This very rare FIVE bedroom family home was first built in 1985, making it the exact same age as me, and yet unlike me this home is looking younger and fresher than ever! Recent renovations have ensured this home has a stylish and contemporary interior, and now has a kitchen and bathrooms fresh enough to compete with some of the best new builds out there. The central kitchen includes a 900mm oven/stove combo, and overlooks the sunken lounge at the rear, one of the TWO main living areas! The 4 extra bedrooms are all roughly the same size, so your kids won't need to argue over who goes where, and they all have built in robes too. On top of having a brilliant house, you will also be just metres from the High Wycombe Primary School, IGA, bus stops and more.. and also not too far from the new High Wycombe Train Station too. Quick Stats • 5 bedrooms • 2 bathrooms • Fully renovated • Great side access • Super close to the shops and High Wycombe Primary School • 753 square metre block, slightly elevated towards the back Water rates: \$1,325.15 p/a (approx.) Council rates: \$2,288.37 p/a (approx.) Disclaimer: Whilst every care has been taken in the preparation of this advertisement, accuracy cannot be guaranteed.
