\$615,000

This home says yes to most questions asked, so let's see if it fits your needs! The home has four bedrooms, main with an ensuite, its open plan living area has L shaped glass sliders perfect for the Queensland climate. As you enter there is a separate area which gives you several options, study, office or just sit quietly to read and relax. Being a corner block, it has two entries the first takes you into the double lock up garage, the second entry will take you to the 6x6m shed complete with workshop area. It's solar hot water and solar electricity will keep the bills down all this and still room for a pool and more sheds as it sits on just over half an acre, so if its ticking a few of your boxes then its ticking other people so book an inspection. Property Code: 1596
