Cul-de-sac Setting Ready for Love! If you are seeking a project and need space that can adapt to your needs, then this cul-de-sac home could just fit the bill. More than ready for someone to come in and explore the hidden potential, the home offers a versatile layout and light-filled spaces that could be something special with a little inspiration. Pitched ceilings and accent windows add appeal through the air-conditioned accommodation which provides multiple living areas, stainless steel appliances in the reno-ready kitchen plus five bedrooms including an ensuite master. A study, separate sitting room and main bathroom keep the internal floorplan going while outside is a blank canvas patio and carport parking. With a little elbow grease this could be a very attractive rental property and taking it further with a full renovation this could be transformed into a home you can enjoy well into the future - alternatively you may prefer to clear the 573sqm (approx) site for a brand new home tailored to your exact needs and lifestyle (STCA). Tucked in a quiet court, this is the perfect location to make some savvy investment and plan for the future. Close to sporting clubs and Seaford wetlands and a walk to Patterson River Secondary school and Seaford North Primary, it is also within easy reach of transport and stunning sandy beaches.
