Whatever your lifestyle, this home will leave you feeling calm and relaxed. With a strong vision to create a resort style lifestyle and a sanctuary of privacy and space, this home is privately situated in the heart of Shearwater. One of the first home built in this prestigious location, the home has been transformed and graced with bright open spaces, polished floorboards, white interiors and a contemporary feel. From the entrance to the generous open plan living, the design is both modern and casual. Open to the northern aspect the kitchen, dining and living on the upper-level overlap and extend to the expansive deck where you can take in views of the estuary. 5 bedrooms over both levels of the home are generous and the ground level living area extends to the spa and entertaining space in the pretty gardens. Working from home may be difficult from the separate office as it overlooks the rear garden and outdoor firepit. Established trees and high fencing create a private backdrop for the rear yard and a sundrenched paved patio leads to the separate workshop and storage area. A home of strong style and character. • Walk to beaches, cafes and golf course • Dual Reverse cycle air conditioners • Generous entertaining space • Great holiday place for the family
