\$850,000

Only five years old, this as new home has all the must have features that you could think of. The three living areas give you lots of options for work and play. The open plan living area is spacious; and perfectly designed to capture the sun all day, creating a comfortable and cosy space that just brings a smile to your face. The kitchen is well appointed with stone benchtops, 900mm oven and cooktop plus walk-in pantry. The main bedroom boasts a walk-in robe and ensuite that most parents could only dream of. The thoughtful design of the home is a credit to the owners and the floorplan offers versatility with the third living area currently being used as an office. Storage is a must, and the walk-in linen cupboard is something that every house should have. Triple sliding glass doors open onto a tiled and covered alfresco area, and the good rear yard access to the big back yard means plenty of options for an extra shed or storage. This home is perfect for the growing family, so why build when you can move straight in and get on with living?
